Unique Water-Fill Anchor Attachment Feature
½ inch Tie Port Hole for Ropes or Bungees
One Handed "Cam Lock" Technology
Square Tooth Design Provide Greater Surface for Superior Gripping
Spring Loaded for Fast Deployment

**WARNING:** Always Fully engage "Cam Lock" when deploying clip. When using this clip on thin material, fold material several times to give jaws something to grip onto. When using clips with stretch cords, use caution as clip may dislodge under extreme tension. To avoid injury, keep eyes and other vulnerable body parts away from cord and clip rebound path. Not intended to support human weight or to secure loads subjected to high storm winds.
